

DON'T BE FOOLISH, RECHARGE YOURSELF

Product Catalog

HALF A CENTURY OF TANNING EXPERIENCE

Thank you for choosing Ultrasun

At Ultrasun, we believe that your wellbeing is about more than feeling good and looking great. We believe that responsible use of light, and the energy it releases, should form a regular part of our lifestyle. What we aim is to be your partner of choice by recreating the energy and vitality of a sunny day in a safe and controlled environment. So you can enjoy a moment when you can close your eyes, Recharge Yourself and look forward to what life has in store for you.

Ultrasun International is a proud, family-owned company based in the Netherlands. With a strong presence in over 60 countries, we operate a state-of-the-art production facility in the Netherlands and maintain several offices worldwide. Our commitment to independence drives our success and innovation in the industry.

Our mission is simple: To provide luxurious wellness experiences and maintain strong partnerships. Ultrasun strives to fulfil the high requirements of our customers and provide them with devices of the highest quality to make your tanning sessions one of pure pleasure and relaxation.

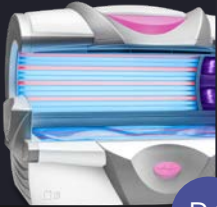

Don't be foolish,
Recharge Yourself

Discover CollaTan

HARNESS THE BENEFITS OF RED & UV LIGHT

UVA-light

For a direct, intensive and attractive tan

UVA light is responsible for producing a deep, long-lasting tan by penetrating the epidermis and activating melanin.

This creates the natural, sun-kissed glow CollaTan is known for.

UVB-light

To get a natural, long-lasting tanned skin

UVB light boosts melanin production and accelerates the tanning process while supporting the body's natural Vitamin D synthesis, essential for bone health and immunity.

RED light

Restoring the skin's youthfulness

Known for its anti-aging benefits, red light stimulates collagen, helping to smooth fine lines, enhance elasticity, and keep skin firm. Perfect for giving your skin a youthful look.
